

800 SERIES WOOD PANEL DOORS

The 800 series boasts a variety of high-grade wood species like mahogany, cedar, oak and ash, precision handcrafted using vertical stiles and horizontal rails in your choice of panels, ready to stain or paint. Stile & rail construction offers virtually limitless door styles, configurations, panel and sticking profiles.

Since the panel isn't physically attached to the frame, it is free to expand and contract with seasonal changes in humidity without affecting the stable shape and size of the frame.
